TRUE ROYAL

SINGER/RAPPER/ACTRESS
THE HOLLYWOOD HEALER

2023

BIO

Georgia's own, True, is an American singer, songwriter and dancer. Born in Baconton, GA, she began singing at the age of eight. The small town singer recalls having a lonely childhood but through music she found therapy from depression and the toughest of times in her life.

True credits the Selena film as a major influence in her early childhood that helped her gain a love for performance. Some of her other top musical influences range from Shania Twain to George Strait, Whitney Houston and Brandy. Although she excelled in multiple careers such as the US Army, the security industry and red-carpet hosting for True Hollywood TV, just to name a few, the r&b hustler has a mission of bringing back a 90s sound and a musical vibration that people in the world can feel again.

With singing comes dancing for the multifaceted artist. Trained in modern, liturgical, hip hop and Mime dance styles plus her catchy songwriting skills make her a triple threat. When it comes to writing music, she creates poems that become spoken words that transform into a story and then transitions to a song. For the Gemini-born singer and known spiritualist in the music industry, the stage is a place of freedom to create big energy that any crowd can connect to.
